THE TENNESSEE LAND REGISTER

For nearly three years past, has been an occasional publication, published as the demand required, and has been issued in book form. Our extensive advertising at home and abroad has called forth thousands of inquiries about East Tennessee, and the opportunities for investment. It has been our custom to answer these by circulars prepared expressly for the purpose, as well as by letter. The great cost in labor, postage, &c., necessary to this is obvious. The thousands of letters received are from all parts of the United States and Europe, many of which bear the unmistakable evidence of coming from the better class of people who are well to do, but who wish to find a more genial climate away from the rigorous cold of the northern winters, or the malaria of the low lands of the South. Here they expect to find that much desired mean where the whole year can be spent in comparative exclusion from both heat and cold. But we also have thousands of inquiries from the Artisan, the Mechanic, the Laborer and the Farmer of scanty means, many of whom hardly have sufficient means to land them at our doors, and while they form the great strength of a community, they must find on their arrival immediate employment or suffer for the common necessities of life. All these elements are necessary to develop our many resources, both Agricultural and Mineral. Capital and labor go hand in hand for the building up of a country, and our numerous waste places invite both. What is required is specific information, that which can be relied upon. For the purpose of meeting the greatly increased demands for information about this beautiful and delightful section of the South, the Central part of the United States, we have decided to publish the LAND REGISTER as an eight page monthly paper which will be devoted more particularly to Real Estate, Manufacturing, Mining and the industrial interests of our section, but will also devote considerable space to statistical reports and commercial interests, in fact all subjects for the advancement of East Tennessee. Our aim is the development of our section; the increasing of our population by a healthy influx of immigration from our own as well as European States, and to attract Capital to build up Manufacturing Interests and the development of our great Mineral Resources.

The thousands of dollars we have spent in extending our correspondence furnishes us a large list to all of whom the LAND REGISTER will be sent. It will also be placed with the many agencies with whom we are able to do business and to whom persons apply, seeking for the information we offer. We have a large number of corresponding agencies throughout the country ready and anxious to place our list of properties and business chances in the hands of their customers at once, and we confidently expect much for the complete system we have of offering property.

The first number of the LAND REGISTER will appear at as early a date as possible, containing a complete list of all properties offered.

Subscription Price 50 cents per annum, in advance. Advertisements inserted at fair rates. Respectfully, MUNSON & BAILEY, Real Estate and Insurance Agents KNOXVILLE, TENN., 6th & 10th.
